Slide 19078

This newly developed Class "A" office property consists of three historic cottages that have been remastered with a vision towards tomorrow and a reverence for the past.

Two of the historic cottages were moved to this site, where one of the cottages had rested for many years. These two cottages were joined and expanded to create the main structure. The third cottage, a separate building, is free standing. Architect Roger Cope's mastery of blending the best of the past with the technologies of today is on full display at this unique complex

Close to downtown - with a rare abundance of parking, this flexible mini-compound is the perfect location for a private family office, law office, corporate headquarters and more.

Seeing is believing. The attention to detail at this property cannot be overstated. Call Bill Bathurst today for a private tour. 561-247-2455

8 parking spaces on site , two additional spaces purchased through cities payment in lieu of pa...
