Presenting a rare opportunity to acquire 15 acre estate sites with pristine forests, meadows and ravines nestled in the historic Steintal Valley, three miles from Kiel, Wisconsin.

Founded by German settlers in 1854, this beautiful valley has been carefully preserved by the same family who has owned it for nearly 50 years. Now large, prestigious estates are carefully tucked away from view throughout the valley.

The original ice house, adjacent to Steintal Lake, still stands sentry to the long forgotten settlement. A chapel now stands on the site of the legendary Steintal Valley Lodge, destroyed by fire in 1995.

The unspoiled wilderness and unmatched privacy combine to create the quintessential estate site, ultimate horse farm or wildlife refuge.

Natural ponds, breathtaking views and quiet seclusion create a stunning environment ...the perfect canvas to express your creativity.

Sportsmen will enjoy every type of game and waterfowl.<...
