Your dream home is here! What is not to love about this home?? It is a coveted ranch-style home on a cul-de-sac, with a finished basement and a 3-car garage, AND it backs and sides to an expansive open space! And the solar panels make the electrical bill super low. There is no lack of storage and you will find closets, cabinets, and shelving pretty much everywhere you look. The main floor has all of the basics you will want in a home including an open floorplan, a large family room/great room area, a gas fireplace, and 3 bedrooms and 3 bathrooms. Everything is tastefully decorated and very-well maintained. You'll love the handy mudroom with built-in cabinets and shelves, the laundry room (with a utility sink) that you can access from both the hallway and the primary closet, and the impressive kitchen (large island with counter seating, a dedicated pantry, granite counters, lots of cabinets, a gas cook-top, double ovens, pendant & recessed lighting.... The list goes...

- Excellent Location
- Solar Panels
- Fireplace
- Wood-look Floors
- Deck
