A rare find in the desert. Nestled on a private cul de sac among the trees and garden, you will approach a solid brick home built in 1988 on almost half an acre. The garden is the heart of this home. It is adorned with many flowers, nuts, and fruit trees—three vast beds for the gardener who loves fresh vegetables. Sit on your covered patio in the morning and enjoy your coffee in nature. The living room and sitting room overlook the garden. A wood-burning fireplace gives warmth and comfort to this home. This home boasts natural light in every room—the perfect home for a growing family, with four oversized bedrooms and 2.5 baths. A breakfast bar, eating area, and formal dining room. The two-car garage has epoxy flooring with built-in cabinets and two workshop areas. This home runs on all electricity with solar panels, a community well, and a septic tank. No HOA! Zoned for horses and zoned Clark County not Las Vegas.

- Prime Location
- Fireplace
- Epoxy Flooring
- Built-in Cabinets
