This stunning home was a custom built with great style, offering a spacious and inviting atmosphere. The open floor plan seamlessly blends sophistication and function, offering a haven for luxurious living. Step inside and you are greeted by an abundance of natural light. The kitchen has high-end stainless-steel appliances including a double oven making cooking a chef's dream. The expansive main floor features hardwood floors, a large great room, a bedroom/office, a beautiful fireplace and wood beams bringing warmth and a cozy vibe. The mudroom and pantry/storage are an added plus on the main level. The upper-level bedrooms each have their own baths, and the laundry room is conveniently located by the bedrooms. The primary bedroom suite has a private balcony and a spa 5-piece bath. The attention to detail shows including a staircase with a 20 ft wall of windows, finished spacious basement with a media/rec room, exercise room, and guest room. The fenced backyard has a wonder...

- SS Appliances
- Wood Beams
- Quartz Counters
- Wood floors
