Unbeatable location near the University hospital redevelopment! Fine restaurants, upscale shopping in a pedestrian friendly environment are in the works! Easy access to downtown, the airport and central to all that Denver has to offer. This home has two bedrooms plus a bonus room that could be used as another bedroom, office or TV room. Hardwood floors, coved ceilings, granite counters, private backyard and remodeled bathroom. New roof last summer. This is a great home, in an amazing location and at a fabulous price!
