A bit reminiscent of Nantucket, this home features stylish upgrades that you won't find in Mayfaire's counterparts including exposed beams in kitchen/dining room and antique wood mantle gracing the real stone fireplace with raised hearth.

While being desirably open, you will find cozy spaces in this perfectly thought-out floorpan with all but one en-suite bedroom/bonus room on the first floor.

While sometimes a custom home can be "too custom", the sellers of 6544 Chalfont thought of everything while building and present a product that has broad appeal and extensive upgrades. The floor plan couldn't be better for empty nesters or a small family.

Call Jennifer for a personal showing; this home will not be a disappointment. For once, the photos are a true reflection of the spaciousness and beauty of this home.

- Upgraded lot with fountain view
- Real stone fireplace with raised hearth
- Wood cross beams in dining/kitchen
- Upscale appliance package including 4 burner, gas Viking range with griddle and trash compactor
- Finished on site 4" hardwood floors
- Extensive trim package and custom lighting throughout home
- Built-in shelving with pull out TV pedestal
- 10ft center island in kitchen

ABOUT JENNIFER FORD

My experience and success in real estate is illustrated by my satisfied customers, and their repeat business and referrals. My client testimonials often contain the word "trust" when describing their experience with me. I have made a conscious effort not to operate with a team; you will get me from our first meeting until I han...
