Just after making major improvements to the backyard and painting the inside with a beautiful, seaside color palette, the owners have been relocated for work. This Greek revival inspired cottage was renovated in 2007 with an addition that created a floor plan with modern spaces for today's lifestyle. The heir to this home will adore the thoughtful upgrades including a professionally designed kitchen, fireplace in master, reclaimed heart pine floors, two-story screened porch and large, private backyard with off-street parking for multiple cars. The previous owner was meticulous in duplicating period details leaving the original home's character intact. The new owners have made value added improvements including landscaping, hardscaping and fencing in the rear yard and improvements to the mechanical condition of the home.
