You are going to love the master bedroom suite in this brick colonial with waternview. It is stunning. Stunning. The home also features an upgraded kitchen with granite, open floor plan and generous bedroom sizes. The formal living room is set off by french doors and works well for a home office. The dining room has hardwood floors, crown and chair rail molding and plenty of wall space for furniture. The kitchen is open to the family room across the back of the home and there are plenty of windows for light. One bedroom upstairs has a private bath and walk in closet, the other two share a jack and jill bathroom layout. But you need to see the master suite with private balcony double sided fireplace and spa like bath. (I kid you not, it is stunning)
