This home exemplifies why the Castlerock Silverthorne plan is so popular. Why build when you can move into this home? It is freshly painted, looks like a model and clean as can be! So pretty with the 16ft floor to ceiling windows that light up an open floor plan. Save money on your electric bill! too! New solar installed in 2019. The home is unoccupied at the moment and kept clean and sanitized for your viewing pleasure. Realtor lives in the area and doesn't mind adding "sanitizing door knobs daily" to her list of service. Easy show! You agent can text and go, or I can meet you there.

Please put this one on your list. It may just be your next home!
